Art Unit: 3634

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1,2,11,23,24 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Martin '003. Martin '003 discloses a guide track 6,62, an elongate shield 80,138,140 defining first and second legs attached to jamb 70 and overlying a portion of the guide track to cover the space therebetween.

2. Claims 21,22 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Rekret. Rekret discloses the claimed shield including first and second legs 39,41, first and second tabs 45,47. Inasmuch as these claims are drawn to the shield per se no patentable weight has been attributed to the door movable on guide tracks mounted on a door jamb.

3. Claims 3-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 12-20 are allowed.

Art Unit: 3634

5. The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Haley and Mullet et al '362 each of which discloses a shield use in conjunction with a guide track.

6. Applicant's arguments with respect to the claims have been considered but are moot in view of the new grounds of rejection as necessitated by the amendment clarifying the scope of claims 1-10 and presenting new claims 21-24.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
